Art Unit: 1646

Claims 37 to 45 are pending in the instant application. Claims 1 to 36 have been canceled and claims 37 to 45 have been added as requested by Applicant in Paper Number 4, filed 14 April of 2002.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 37 to 40, drawn to an isolated and substantially pure receptor protein and method of use, classified in class 530, subclass 350.
- II. Claims 41 to 43 and 45, drawn to a receptor-specific antibody and methods of use, classified in class 530, subclass 388.22.
- III. Claim 44, drawn to a transformed host cell, classified in class 435, subclass 252.3.

The inventions are distinct, each from the other because:

The isolated receptor protein of invention I, the antibody of invention II and the nucleic acid which defines the host cell of invention III are three chemically different compounds each of which can be made and used without the others. These three compounds lack unity of invention because they do not share a common utility which is based upon a common feature or combination of features lacking from the prior art.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 1646

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John D. Ulm whose telephone number is (703) 308-4008. The examiner can normally be reached on Monday through Friday from 9:00 AM to 5:30 PM.
